Why do you want to join APNG Camp and how would you like to contribute to the APNG Camp? (Limit to 500 words)

From the communication with people who came from all around the world that I can extend my visual field. And it's also a good opportunity to exhibit myself. During the camp I will let APNG know about my hometown Yanbian. Because Yanbian is located in the middle of the Northeast Asia and it's geographical position has an unbelievable foreground which will help the APNG to make Networking in Asia and the world more easily. Therefore I will introduce my university instead of China. (Then may I keep away from last question?) I will introduce the unique of my college and difference from other universities in China. And I also recommend the advantage and globality of the college which has the potential to hold an internationally camp such as APNG.
